FRACP Part 1: Intensive Two Week Course in Paediatrics 2023

Department of Paediatrics: Child and Youth Health

MEDICAL AND HEALTH SCIENCES SCHOOL OF MEDICINE

Starship Children's Health

Welcome

Haere mai

We would like to welcome you all to this year's FRACP Part 1 Intensive Two Week Course in Paediatrics, organised by the Department of Paediatrics: Child and Youth Health, The University of Auckland with Starship Children's Hospital, Auckland, New Zealand.

The course is a two-week intense review of topics tailored for the Part 1 Fellowship of the Royal Australasian College of Physicians in Paediatrics written examination, which takes place in 2024.

Our aim is to provide topical and relevant sessions of high quality by specialist clinicians. Therefore, we have invited speakers from Starship and other NZ hospitals to lecture on subjects they consider important to paediatrics at the trainee level or knowledge leading to more complex matters later in their training.

The course is updated annually and involves a mixture of topic reviews and mock questions within each session. Honest opinions concerning the strengths and weaknesses of the programme have already allowed us to improve future courses. We hope you will also record these on the daily session feedback questionnaire provided during the course so we can continue to update the course content.

We are grateful for everyone's efforts in producing the programme and for you all attending the course in person or online. Your role in participating in the course is an essential one.

We hope you will find the course an invaluable component of your exam preparation and wish you well in your upcoming exam.

Prof Cass Byrnes Dr Susie Cunningham

Course Directors

Date and venue

19 November to 1 December 2023

The University of Auckland Faculty of Medical and Health Sciences, Grafton, Auckland, New Zealand

This course is also offered online.

There is no lecture on Saturday 25 November and Sunday 26 November.
